Hugo R. Falter

Austin, April
2012

- Founded 15th Dec 2010 in Munich

- Legal Form : Societas Cooperativa–Europaea (SCE)

- Effective since 18/08/2006 in all European members states.

- Members are shareholders & stakeholders.

- The purpose of the European Open File System SCE is the promotion and servicing of the members needs.

- The EOFS has currently 19 members *!

  * To become a member of the EOFS please send an email to the following

  adress: contact@eofs.org

Tuesday, May 1, 12

Goals

- To promote the establishment and adoption of open source parallel file-systems, sustain and enhance its quality, capabilities and functionality and ensure that specific requirements of European organizations, institutions and companies are upheld.

- To facilitate the extension of business operations to non-members.

- To initiate projects or to collaborate with existing projects at regional, national, European and international level in order to support Research&Development activities concerning Open File Systems.

- To ensure that engagement and activities with other organizations will not directly or indirectly interfere with the intellectual property or other contractual and legal obligations of its members.

- To operate as a non-profit organization.
